Second Major Glades Ramie Operation Is Infused With New Money And Purposes

Kenaf Operation Paid Off In Full And New Dairying For Ramie In Glades

One Glades real estate man frankly admits that the "Yankee With The Black Bag" has contributed greatly to bringing the Glades back along its path of progress — the contents of the "black bag", coupled with Nature's soil and climate makes the Glades an irrefutable paradise of agriculture. See the U. S. Sugar Corporation, Brown's Farm and Hillsboro Plantation, Newberry, Okaloosa Sugar Plantation, the American Kenaf and Ramie Corporation, Indian Trail Ranch and many others with operations of lesser investments.

A. L. Gutierrez, plunged headstrong into ramie production in '51 only to be side-tracked, before he got started, on a dream of continental supply of a jute substitute — Kenaf.

The wiles of bureaucratic red tape, special interest and foreign jealousies, AND NOT ONE CENT OF GOVERNMENT FINANCES, as in other similar operations, quickly deflated the "black-bag" and caused creditors to run a red line thru items in "accounts receivable."

Mr. Gutierrez took a licking on Kenaf and let Colonel Soriano a big in the Philippines, industrially and financially, have a go at the too much money with near-sighted, elastic-minded and plausible-conscience, bureaucratic interpreting, administering and abrogating intentions of Congress under the protection of the Truman-inspired civil service decree, got the Colonel too.

Wednesday morning, Mr. Gutierrez, as President, of a rejuvenated organization, pledged to ramie and cattle, spread joy in the Glades and other South Florida points in the form of "checks in full" to creditors of the American Kenaf Fiber Corporation.

The new organization is known as Palm Beach Ramie, Inc., and is composed of some very substantial financial groups.

"Now comes Mr. Gutierrez with a fresh bunch of wearers of the "black bag" to pay off in full all creditors with enough left to go ahead with a sizable ramie operation, as first planned, and to add to the sum total of cattle in the Glades. Rumors are rife, and not from Mr. Gutierrez, about a nationally known dairy organization, establishment and sale of dairy products as a part of the operation.

Anyhow, the creditors are satisfied. More Kelly, the firm's engineer and Herman Close, Field Superintendent are busy plowing land and preparing to plant as many hundred acres of ramie as the season will allow.

The second cutting harvest of the current season on 380 acres is to commence shortly along with the planting now in progress.

Mr. Gutierrez, as enthusiastic in the new organization as in his original venture, said, "From the first when I had been sold on the muck lands by the Resources Board in Palm Beach, I have had visions of a major agricultural operation to include fibers, cattle and other staple items, and now I am still here with my own money and that of associates with plans based on experience to follow thru with that idea."

"Though we were side-tracked in our efforts to cooperate with the Munitions Board in (Continued on Page Four)

LOCAL MEN TO SPEND TWO WEEKS ON RESERVE DUTY AT CAMP RUCKER, ALA.

Local reserve members of the 318th Logistical Command with headquarters at West Palm Beach will attend summer field training with other reserve troops from the 3rd Army at Camp Rucker, Alabama from August 9th to the 23rd.

The following personnel from the Belle Glade area will participate: Major W. A. Wooten, Jr., S-3, Plans and Training Officer, Major E. M. Lively, Ordnance Officer, Lt. George Wedgworth, Special Service Officer, WO1C Junior T. Harris, Personnel Officer, Captain Banna Rodriguez, Medical Section, 1st Lt. E. S. Roberts, Assistant Plans and Training Officer.

The unit will function as the headquarters for about 1,000 officers and men from several states in the 3rd Army Area.

Col. R. Bruce Jones of West Palm Beach commands the unit, and the personnel are from several communities of the county.

The organization is a part of the Active Reserve program and participates in weekly drills throughout the year besides the annual summer field training.

Logistical Commands are new type units developed since World War 2, and have as their primary mission the coordination of supplying field armies. It is recognized that in any future wars the problems of logistics will be one of the principal handicaps our country will have in winning a victory. Part of the unit will fly up Sunday morning with the balance going by train.

DONATION FOR KOREAN RELIEF \$123.45

Collection for Korean relief at the local Hugo theatre was sponsored by a committee from American Legion Auxiliary.

Mr. Homer Brooks, President, Mrs. George Toddler, Mrs. Effie Allen, Mrs. Nellie Thomas, Mrs. Sylvia Jones, Mrs. Louise Kiehl, Mrs. Virginia Prescott, Mrs. Helen Johnson and Mrs. Henry Vaughn, Jr.

Total collection for Saturday and Sunday was \$72.82 from Hugo theatre and from Prince Theatre in Pahokee which was sponsored by the Woman's Club.

\$56.83 making a total of \$129.45 for both theatres.

Not A Show — Not A Diversion — But Down-To-Earth Religion!

The Methodist Church has invited Alcoholics Anonymous to conduct a service Sunday morning at the church.

George Royal, as moderator, will present three well known rehabilitated persons of West Palm Beach — one a woman — whose devotion to the cause comes from benefits gained thru this organization.

Mike Murphy has assisted George in arranging the program.

You are invited to attend, with or without an active religious belief or association.

Service at 10:30 a.m.

REGISTRAR UPTHEGROVE COMPLIMENTS EFFORTS TO SECURE 100% VOTE

DeWitt Uptegrove, County Registrar, complimented local organizations for efforts to get out the vote; while he was telling the Lions Wednesday that 232 registrants did not vote in the last City election.

Palm Beach County saw practically 100% of its 100 registered voters exercise their franchise on election day in 1910 at the County's first election.

In 1952 primary with 48,779 registered only 30,759 voted, while in the general election 54,943 registered only 45,121 actually voted.

The total registration in the Glades today is 5,590, more than a majority of the counties in Florida.

"L. C." Young Dies Suddenly While At Work With Legion

Popularly known as "L. C." and a resident of the Glades since his return from France as a medical aid man with the Armed Forces, L. C. Young, aged 44 died suddenly Tuesday afternoon at approximately 2:30 p.m. while busy with a helper on his job as Steward for the Legion Club.

Dr. J. S. Simmons asked the Fire Department to join him in the resuscitation when he was called, but despite immediate response the heart attack had proven almost immediately fatal. It was disclosed upon examination.

Mr. Young's father, J. M. and two brothers, came to Belle Glade when contacted by Commander J. B. Jones of the Legion, and have shipped the body to Andalusia, Ala. for burial, where his mother, Mrs. Mattie Young and 13-year-old son, Michael reside. Another son, Johnny Lee, aged seven lives with his mother in Ft. Lauderdale.

Mr. Young's many friends, especially among the Legion Club members and other service men had hoped some funeral service would be held in the Glades, but the aged father and brothers announced that family relations of three states would gather at Andalusia to pay last respects.

APPLIANCE DEALERS TALK OVER WRIVING PROBLEMS

Local contractors and electrical appliance dealers in the Belle Glade area attended a dinner meeting Tuesday night at the local restaurant with Florida Power and Light Company personnel to discuss the problems of adequate house wiring.

Attending were: N. B. Willis, C. E. Crichtfield, A. O. Leffingwell, A. J. Richmond, Benny Richmond, W. W. Collins, Douglas Collins, George Hruby, John Pickett, Ray Riggallard, Garlon Berryhill, Jack Royal, Jim Bennett, Bob Archer, Jack Howell, Roscoe Williams, Boyd Mathis, Mrs. Lottie Pierce, Miss Jane Reynolds, R. D. Hill, Curtis A. Boyd, Lloyd Clanton, and Claude Smith.

Claude Smith, Florida Power and Light Company's Director of Rural Development, demonstrated the effect on appliance operation of inadequate house wiring.

He stated that the wiring of many homes built five years ago is not adequate for proper and efficient operation of new appliances.

The home owner has continued to install appliances, which were not in use five years ago, resulting in the overload of house wiring not designed for this new equipment.

An example of the increased use of electricity is shown by a comparison of electricity used by the residential customer. In 1951 the average residential use of electricity in the nation was 2,000 KWH per year as compared to about 800 KWH per year ten years ago.

During 1952 the average electricity use per residential customer exceeded 3,200 KWH.

Negro Accidentally Killed By Own Gun

Edmund Hall, 37, a resident of Camp Okeechobee was fatally wounded by his own gun when he was turning, and fell and being fired by the impact on the floor.

Edmund who had had some marital difficulties appeared at the home of his in-laws about one am Monday morning searching for the wife. After making inquiry of his father-in-law, Daniel Best as to "Where is Frances?" and receiving a negative reply, Hall turned to go elsewhere in his search.

A small automatic, held between his body and his belt, slipped, as he was turning, and fell to the floor. In his eagerness to recover the automatic, Hall had begun his bend downward to the floor when the gun discharged with the bullet entering his left eye and piercing his brain.

Officer Trammel of the Belle Glade Force was first on the scene, with Constable Buford Prescott following closely. Constable Prescott reports that tests on the gun developed that it will fire without full when dropped. He also reports that tests show that the ejector failed to work because of the position of the fallen gun on the floor.

Three witnesses, mother and father-in-law and the widow's sister, Manny Lee, confirmed in detail, the facts above outlined, and Solicitor T. Harold Williams decided that no inquest is necessary.

POSTPONED MEETING OF LEGION TO BE HELD ON TUESDAY NIGHT, AUG. 11.

Because of the sudden death of L. C. Young on last Tuesday afternoon the regular meeting scheduled for that night was postponed.

The Executive Committee in special meeting authorized the postponement and the new date, with an earnest request that all members attend the Tuesday night meeting, if practicable.

The regular Friday night square dance will be held as scheduled tonight.

St. Lucie Outflow Needed To Maintain Lake Level Within Safe Boundaries

LOCAL BOYS REPRESENT COUNTY IN NORTH SOUTH GAME IN JAX ON AUG. 13

Bob Barber and Pony Phillips, who they will practice 8 days before playing for the South in Jacksonville.

The news that the Jacksonville office of the U. S. Engineers had set August 3rd for the time to open the Caloosahatchee River locks for the purpose of regulating and lowering the level of Lake Okeechobee is indicated with too much dependence put in only the Caloosahatchee.

The two too bright a picture is built up thru the information gained, for serious danger of a continuing rise in the Lake level is indicated with too much dependence put in only the Caloosahatchee.

Since this story was written word has come down from Jax that the engineers are constant of the situation. St. Lucie has been partially opened, and will be fully opened by the time you read this.

An attempt will be made to lower the Lake to 13.5 and keep it there as threat demands.

Engineers report that there is a total of 7,000 cubic feet per second inflow around the Lake, with the Kissimmee, Fish Eating Creek, Harney Pond and other inflows, creeks and rivers contributing.

The maximum outflow of the Caloosahatchee is 2,500 c. feet per second, so that any rainfall above normal, less the 2,500 c. feet per second outflow of Caloosahatchee, will add to the Lake level. Engineering authority states that each day of any week will bring a half to one inch.

Thursday — opening the St. Lucie, which has an outflow of 7,500 feet per second.

But, the Lake water irritates the disposition of the salt water fish in the St. Lucie inlet and the lower St. Lucie, and folks in Stuart protest violently at the thought of the fish and holding off opening the St. Lucie Canal as long as possible.

They're folks too and entitled to their opinion. The question is whether the fishing in Stuart is more important than the fall crops around Lake Okeechobee.

"The Old Marster" has been sending us just gobs and gobs of rain during August and September since we've been ritten the records down and it is expected that '53 will not be different; so, something should be done, and done right now, if we do not want an extremely high Lake for our fall crops.

The engineers are still rubbing the bruises caused by Senator Holland and Senator Smathers' tart reference to their "gelling plans" for Central and South Florida, and are very alert to loud splashes about sport and commercial fishing.

The boys in the Engineers, we must remember, are generally chosen from the top ratings academically at West Point. While they're at the Point they're told they're the most selected group of young students existing; they're told that when they graduate and especially the top honor students, some of them still believe that when they get to be Colonels; a few learn the facts of life before the silver "buzzard" comes to rest officially on the shoulders.

The Central and Southern Florida Flood Control project has been a great lesson in engineering — to the Corps. They're getting better, however, and a little advice from local groups is needed. The Corps is to the advantage of the fall crops around Lake Okeechobee.

Lamar Johnson, Engineer for C&S, states that the Corps of Engineers (Continued on Page Four)

Mrs. Carlton and children, Penny and Peggy, who are visiting her relatives in Edmonton, North Carolina will accompany Mr. Carlton home.

PROCTOR ROEBUCK WEBS CAPT. INGRAHAM GARNER
Mr. and Mrs. Roy Roebuck of Fairfield, N. C., announce the marriage of their daughter, Ollie Proctor Roebuck of West Palm Beach to Capt. Ingraham B. Garner, formerly of the U. S. S. C. at the Air Force Chapel in Orlando Tuesday, August 4, at 3:30 pm.

The double ring ceremony was performed by Chaplain M. H. Mengel before an altar banked with baskets of white gladioli with candelabra at either end.

The bride wore a street length dress of pale blue silk tulle with fitted bodice, full skirt and Eton jacket of matching allover lace, with white accessories and a white orchid corsage.

Cut out roses of the all over lace attached to a blue band formed her head piece.

Mrs. Forrest Pearce of Oklawaha was the bride's matron of honor and wore a yellow shantung dress with white accessories and a corsage of orchids.

Major James Craze served as the groom's best man.

Miss Roebuck was associated with the law offices of Winters, Foskett, Cook and Tylander in West Palm Beach and was a resident of Belle Glade for five years where she was secretary at the Oklawaha Sugar Mill and also Glades Appliance, making her home with Mrs. Ethel Farr and Miss Doris Hackney from West Palm Beach.

After a two weeks honeymoon trip to New Orleans, the couple will be at home in Orlando.

Mr. and Mrs. A. Patrick in Pennsylvania, journeyed on to Minnesota, where they were guests for a week of her brother-in-law and sister, Mr. and Mrs. F. A. McDowall.

In Iowa they spent some time with Mr. Kirchman's relatives, Mr. and Mrs. Harry Meyers, and visited Mr. and Mrs. L. Hughes, and Mrs. Harlee Whitlock in Illinois, who are brother and sister-in-law and mother of Spence and Ray Whitlock. Their last stop before returning home was in Rock City, Tennessee.

MRS. JOE LEAVITT HONORARY AT SHOWER
The home of Miss Jackie Royals was the scene of a stork shower Monday evening honoring Mrs. Joe Leavitt. Each guest on entering was presented a white paper napkin, folded and pinned to represent a miniature diaper, numbered for drawing the door prize.

Before a make believe chimney a large stork with a diaper in his beak stood over the box of gifts. On the serving table another stork adorned with glasses and a black satchel seemed to be looking things over, and to further carry out the idea moulded ice cream storks were served the guests.

The guest list included Mrs. Robert Archer, Mrs. George Scarborough, Mrs. F. A. Tedder, Mrs. Fritz Stein, Mrs. Joe Friedman, Mrs. James Ball, Mrs. M. Coleman, Mrs. J. C. Baldwin, Mrs. R. L. Litchfield, Mrs. Frank Stevenson, Mrs. Sam Crisman, Mrs. Ethel Pruitt, Miss Jeanette Hobby, Mrs. Gene Womack, Mrs. Billy Eggleston, Mrs. James Ellis, Miss Margaret Price, Mrs. H. L. Royals, Miss Nancy Ball, Miss Esther Friedheim, Miss Joan Robin, Miss Norma Jean Royal, Miss Mary Burke, Miss Linda Humphries, and Miss Patti Ingram.

Hostesses assisting Miss Royals were Miss Marianne Womack, Miss Donna Norris, Miss Catherine Friedheim, Mrs. Irma Stein, Miss Jackie Miller and Miss Bonnie Williams.

This demonstration showed me the way to a better deal!

I'd been planning to buy a higher-priced car until I found out all Chevrolet offered—

and how much I could save!

You get more power on less gas

That's because Chevrolet's two great valve-in-head engines are high-compression engines. In Powerglide® models, you get the most powerful engine in Chevrolet's field—the new 115-h.p. "Blue-Flame." Gearshift models offer the advanced 108-h.p. "Thrill-King" engine.

And it's the lowest-priced line

A demonstration will show you that Chevrolet offers just about everything you could want. It's the lowest-priced line in the low-price field.

"Combination of Powerglide® automatic transmission and 115-h.p. 'Blue-Flame' engine optional on 'Thrill-King' and Bel-Air models at extra cost.

You get greater getaway with the new Powerglide®

A lot finer performance on a lot less gas. That's what you get with the new Powerglide® automatic transmission. There's no more advanced automatic transmission at any price.

Biggest brakes for smoother, easier stops

An easy nudge on the pedal brings smooth, responsive response—right now! Chevrolet's improved brakes are the largest in the low-price field.

It's healthier for better roadability

You're in for a pleasant surprise at the smooth, steady, big-car ride of this new Chevrolet. One reason is that, model for model, Chevrolet will weigh up to 200 pounds more than the other low-priced cars.

Let us demonstrate all the advantages of buying a Chevrolet now!

They left here June 17 accompanied by Edwin Best, who visited his sisters in Nottingham, whom he had not seen in 43 years. They made the trip by air and returned home last week, leaving almost immediately to visit relatives in Bonny, Chipley and Panama City for a couple of weeks.

EFFECT OF OKEECHOBEE WATER ON STUART AND FT. MYERS FISH STUDIED

Colonel H. W. Schull, Jr., District Engineer of the Corps of Engineers, Jacksonville, Fla., announced today the closing of a contract with the University of Miami for a preliminary survey to determine the effects of releasing water from Lake Okeechobee upon the marine life in the Stuart and Fort Myers areas.

This work will be accomplished by the Marine Laboratory of the University, which has had great experience in work of this kind.

The survey will consist of making a field reconnaissance

of the St. Lucie Canal, the Caloosahatchee River, and of the bays in the Stuart and Fort Myers areas. This field reconnaissance will be made for the purpose of selecting locations for water-observation stations and securing anecdotal evidence on local conditions to determine the nature and extent of fishing and to delineate more precisely the effect of Lake Okeechobee

discharges on marine life.

Water samples obtained at the stations selected during the field reconnaissance will be studied to determine the oxygen content, turbidity, sediment, hardness, and organic material.

Observations will be made before, after, and during the period when water is released from the lake.

Upon completion of the study, which is expected to take about a year, the Marine Laboratory will submit its findings in a written report to the Jacksonville District Office.
